

Well, we're stumped on this one. We had these photos on file of a girl in her almooooost flopped 4Runner, but we can't find hide nor hair of who she is or where she's wheeling. But, we are certain that among our faithful readers is someone who knows these folks. Let 'em know they made it into 4WD Toyota Owner magazine, tell them to email us, and we'll give 'em proper credit next issue. ✓
